

Preparation & Follow-up Package 2020

In response to requests and suggestions from our clients, we have developed a package of online, face-to-face, training in preparation for your UK immersion course in Executive and Professional English language and also a follow-up programme which helps you to continue with your learning after you have returned home.

The training starts two weeks before you travel to the UK and continues for two weeks after you return home.

All you need is a laptop with a camera and a microphone and speakers and you can connect live and real-time to your trainer both before and after your course in the UK.

The complete package consists of 10 face-to-face sessions:

- 2 x 50-minute sessions two weeks before you arrive
- 4 x 50-minute sessions one week before you arrive
- 2 x 50-minute sessions one week after you leave
- 2 x 50-minute sessions two weeks after you leave

In this way, you can prepare for your UK course so that you are ready to take maximum advantage when you arrive at our training centre.

And then, after your course, you can continue to work on the areas that cause problems or interest you, while your mind is still focused on English.

The cost for this programme, if booked at the same time as your UK-based course, is only £450.

The perfect way to start (and finish) your training with Accent !
