

OET: The Occupational English Test 2020

For Nurses, Doctors and all Healthcare workers.

About

OET is an Australian-developed English Language Test which assesses language communication skills of healthcare professionals. It provides assessment of all four language skills—listening, reading and speaking—through test materials designed to reflect real healthcare scenarios.

Specialisations

OET has been developed specifically for 12 healthcare professions: Dentistry, Dietetics, Medicine, Nursing, Occupational Therapy, Optometry, Pharmacy, Physiotherapy, Podiatry, Radiography, Speech Pathology and Veterinary Science.

Acceptance

OET results are accepted by healthcare regulators in the UK, Ireland, Australia, New Zealand, Dubai, Namibia, Singapore and Ukraine as proof of English language proficiency. At the moment, two countries, Australia and New Zealand also recognise OET for visa and Immigration purposes.

Why choose OET?

- Individual Doctors, Nurses and other healthcare professionals can use it to demonstrate their ability to perform in their profession using English.
- Healthcare organisations can use it to check the relevant language of their current or potential employees.
